Expertise

“Every surveyor we had knew our business inside and out, identified with the challenges we face every day, and held us to our own unique standards and not those of other health care settings.”

Efficiency

“We had six centers that already had an award, but we decided to seek accreditation for all centers since it is such a great way to showcase quality. The Joint Commission taught us the value of standardization to achieve a higher level of efficiency.”

Guidance

“The Joint Commission team will go to great lengths to ensure that you are aware of what you’re supposed to be doing. They were very understanding and helped us get back on track to meeting our deadlines.”

Results

“I have yet to come across anyone who doesn’t recognize what it means to be accredited by The Joint Commission. For us, it helped improve critical thinking among the staff and has improved our regulatory survey preparedness.”
Efficiency
Operational Challenges
Facing Nursing Centers

Today’s Issues

– As much as 40% of health-care dollars spent is waste

– 3 Primary forms of provider-related waste: Process Inefficiency, Overuse, Preventable Harm

– Other factors to consider - consulting costs for ad-hoc quality assurance projects/initiatives, state survey readiness, cost of shortcuts, repetition, re-training, errors

Accreditation & Specialty Certifications

Post-Acute Care & Memory Care Certifications

The Joint Commission offers nursing care centers the opportunity to build upon specialty distinctions by providing two certification options.

**Post-Acute Care**
- Leadership accountability
- Staff knowledge and competency
- Provision of care for the high-acuity patient
- Transitions of care

**Memory Care Certification**
- Care coordination
- Staff knowledge and competency
- Activity programming based on abilities
- Behavior management
- Safe, supportive physical environment

Accreditation On Your Terms

− You decide when to apply and designate blackout dates for on-site survey.

− Non-prescriptive standards allow you meet our requirements based on your resources and capabilities: We tell you the what, you tell us the how.

− Customers are appointed a dedicated account executive to guide them throughout the process.

− Key resources and customer assets are centrally located via customized extranet portal.

− No progressive levels to achieve. You can earn The Gold Seal of Approval® on your first survey.

5-Star Ratings for Accredited Nursing Homes

Joint Commission-accredited organizations performed better than non-TJC-accredited nursing homes across a broad range of measures.*

− Accredited nursing homes with Post-Acute Care Certification outperformed accredited organizations without certification

− Statistically higher ratings on the overall five-star rating as well as each of the component subscales (Health Inspections, Quality Rating, Staff Rating and RN Staff Rating)

* “Comparing Public Quality Ratings for Accredited and Non-accredited Nursing Homes,” The Joint Commission Original Study, Published in JAMDA, 2016.
Quality metrics where accredited orgs scored higher:

- Need Less help with late-loss ADL
- Less likely to experience falls resulting in a major injury
- Less likely to experience moderate to severe pain (long and short-stay measures)
- Less likely to be prescribed antipsychotic medications (long and short-stay measures)
- Less Likely to acquire new or worsened pressure injuries
- % Assessed and appropriately given the pneumococcal vaccination
- % Assessed and appropriately given the influenza vaccination

Your On-Site Survey

About the On-Site Survey Process

The Joint Commission’s accreditation process helps nursing care organizations improve safety as well as the quality of care and services provided. We begin with an on-site survey that assesses compliance with our rigorous, evidence-based standards and it involves:

- Tracing the patient’s or resident’s experience, including an examination of services performed by various care providers and departments within the organization as well as the hand-offs between them
- On-site observations and interviews with surveyors
- Review of documents provided by the organization
- Assessment of the physical facility
